# New Publications available from the Geological Association of Canada

***SP 48: Dynamics of Epeiric Seas***  
B.R. Pratt and C. Holmden, 2008, 418 pages,  
ISBN: 978-1-897095-34-8

This collection of 16 copiously illustrated papers by an international slate of authors grew out of special sessions held at the Geological Association of Canada annual meeting convened in Saskatoon, Saskatchewan, in 2002. They cover a wide range of subject matter using examples from around the world. Thus the papers represent the state-of-the-art in a variety of aspects, from sedimentological to paleoecological, geochemical to oceanographic, siliciclastic to carbonate. This volume will be of great interest to earth scientists of many stripes, including stratigraphers, sedimentologists, paleontologists, geochemists and petroleum geologists.

***Géologie des ressources minérales***  
Michel Jébrak & Éric Marcoux, 2008, 667 p.,  
ISBN: 978-2-551-23737-1

*Géologie des ressources minérales* offre une synthèse actuelle des connaissances en métallogénie et est orientée vers leur utilisation pratique en exploration. Avec de nombreux exemples pris au Québec et dans les pays francophones, on trouvera pour chaque environnement des données sur la géologie (lithologie, structure, minéralogie, géochimie) les types de gisements, leur genèse, leur économie et les techniques de prospection.

***MP 7: Ottawa's Building and Monument Stones***  
***A Walking Guide***  
Quentin Gall, 2009, 152 p., ISBN: 978-1-897095-41-6

*A Walking Guide - Ottawa's Building and Monument Stones* offers residents and visitors alike an opportunity for outdoor discovery of the dimension stones and natural and built heritage in Canada's capital. The book contains maps, photographs and descriptions by Quentin Gall, a geological consultant and teacher who has lived in Ottawa for over 30 years.
