## Index to Vol. 12

Citation refers to Issue Number and Page Number

	<u>Number</u>	<u>Page</u>		<u>Number</u>	<u>Page</u>
Abstracts: Current research in the Maritimes: AGS	3	99	Deep water sands and silts on the Nova Scotian, continental margin: STOW	3	81
Abstracts: Natural resources of Atlantic Canada: AGS	1	33	Deposits, gravel, sand and, of inner Massachusetts Bay, surficial sediments and: COOKS	1	9
Area, Caldeonian Highlands, the, of southern New Brunswick, regional gravity survey of: BURKE	3	91	Deposit, salt marsh, soil and, a portable, hand-operated device for drilling in: MEDIOLI	2	77
Atlantic Canada, natural resources of Abstracts: AGS	1	33	Depressions, gravel cones and: sedimentary indicators of intense winds: EYLES	2	75
Atlantic geoscience colloquium on current research in the Maritimes: AGS	3	99	Device, hand-operated, portable, a, for drilling in soil and salt marsh deposits: MEDIOLI	2	77
Atlantic Geoscience Society (AGS), Atlantic geoscience colloquium on current research in the Maritimes	3	99	Drilling in soil and salt marsh deposits, a portable, hand-operated device for: MEDIOLI	2	77
Atlantic Geoscience Society (AGS), Natural resources of Atlantic Canada: Abstracts	1	31	Estuary, St. Lawrence, the, morphology and sediments of sand waves in: MONAHAN	1	1
Atlantic Universities Geological Conference (AUGC): Abstracts	2	79	EYLES, N., Gravel cones and depressions: sedimentary indicators of intense winds	2	75
Abstracts: AUGC	2	79	Geoscience colloquium, Atlantic, on current research in the Maritimes: Abstracts: AGS	3	99
Bay, Baffin, continental shelf clay mineralogy: BOYD	1	17	Gravel cones and depressions: sedimentary indicators of intense winds: EYLES	2	75
Bay, Massachusetts, inner, surficial sediments and sand and gravel deposits of: COOKS	1	9	Gravel deposits, sand and, of inner Massachusetts Bay, surficial sediments and: COOKS	1	9
BELL, D.L., see COOKS	1	9	Gravity survey, regional, of the Caledonian Highlands area of southern New Brunswick: BURKE	3	91
BOYD, R.W. and PIPER, D.J.W., Baffin Bay continental shelf clay mineralogy	1	17	Hand-operated device, portable, a, for drilling in soil and salt marsh deposits: MEDIOLI	2	77
Brunswick, New, southern, regional gravity survey of the Caledonian Highlands area of: BURKE	3	91	Highlands, Caledonian, area, the, of southern New Brunswick, regional gravity survey of: BURKE	3	91
BURKE, K.B.S., Regional gravity survey of the Caldeonian Highlands area of southern New Brunswick	3	91	History, Late-Quaternary, of Magdalen Islands, Quebec: PREST	2	39
Caldeonian Highlands Area, the, of southern New Brunswick, regional gravity survey of: BURKE	3	91	Indicators, sedimentary, of intense winds: gravel cones and depressions: EYLES	2	75
Canada, Atlantic, natural resources of: Abstracts: AGS	1	33	Inner Massachusetts Bay, surficial sediments and sand and gravel deposits of: COOKS	1	9
Caves, gravel, and depressions: sedimentary indicators of intense winds: EYLES	2	75	Intense winds: gravel cones and depressions, sedimentary indicators of: EYLES	2	75
Channels, transverse, two, on the northeast Newfoundland shelf, the morphology of: WARREN	1	19	Islands, Magdalen, Quebec, Late-Quaternary history of: PREST	2	39
Clay mineralogy, shelf, continental, Baffin Bay: BOYD	1	17	JACKIMOVICZ, J., see COOKS	1	9
Colloquium, Atlantic, geoscience, on current research in the Maritimes: Abstracts: AGS	3	99	Late Quaternary history of Magdalen Islands, Quebec: PREST	2	39
COOKS, D.C., BELL, D.L., WILLET, C.F., WILKINS, R.L. and JACKIMOVICZ, J., Surficial sediments and sand and gravel deposits of inner Massachusetts Bay	1	9			
Continental margin, Nova Scotia, the, deep water sands and silts on: STOW	3	81			
Continental shelf clay mineralogy, Baffin Bay: BOYD	1	17			
Current research in the Maritimes, Atlantic geoscience colloquium: Abstracts: AGS	3	99			

	<u>Number</u>	<u>Page</u>		<u>Number</u>	<u>Page</u>
Morphology and sediments of sand waves in the St. Lawrence Estuary: MONAHAN	1	1	Regional gravity survey of the Caldeonian Highlands area of southern New Brunswick: BURKE	3	91
Morphology, the, of two transverse channels on the northeast Newfoundland shelf: WARREN	1	19	Research, current, in the Maritimes, Atlantic geoscience colloquium: Abstracts: AGS	3	99
MONAHAN, D., Morphology and sediments of sands waves in the St. Lawrence Estuary	1	1	Resources, natural, of Atlantic Canada: Abstracts: AGS	1	33
Mineralogy, clay, shelf, continental, Baffin Bay: BOYD	1	17	Review, short, a: Quaternary studies in Newfoundland: TUCKER	2	61
Magdalen Island, Quebec, Late-Quaternary history of: PREST	2	39	Salt marsh deposit, soil and, a portable, hand-operated device for drilling in: MEDIOLI	2	77
Margin, Nova Scotian, continental, the, deep water sands and silts on: STOW	3	81	Sand and gravel deposits of inner Massachusetts Bay, surficial sediments and: COOKS	1	9
Maritimes, the, Atlantic geoscience colloquium, current research in: Abstracts: AGS	3	99	Sands and silts, deep water, on the Nova Scotian continental margin: STOW	3	81
Marsh, salt, deposit, soil and, a portable, hand-operated device for drilling in: MEDIOLI	2	77	Sand waves in the St. Lawrence Estuary, morphology and sediments of: MONAHAN	1	1
Massachusetts Bay, inner, surficial sediments and sand and gravel deposits of: COOKS	1	9	Scotian, Nova, continental margin, the, deep water sands and silts on: STOW	3	81
MEDIOLI, F.S., and SCOTT, D.B., A portable, hand-operated device for drilling in soil and salt marsh deposits	2	77	SCOTT, D.B., see MEDIOLI	2	77
Natural resources of Atlantic Canada: Abstracts: AGS	1	33	Sedimentary indicators of intense winds: gravel cones and depressions: EYLES	2	75
New Brunswick, southern, regional gravity survey of the Caldeonian Highlands area of: BURKE	3	91	Sediments, morphology and, of sand waves in the St. Lawrence Estuary: MONAHAN	1	1
Newfoundland: a short review, Quaternary studies in: TUCKER	2	61	Sediments, surficial, and sand and gravel deposits of inner Massachusetts Bay: COOKS	1	9
Newfoundland shelf, northeast, the, morphology of two transverse channels on: WARREN	1	19	Shelf, continental, clay mineralogy Baffin Bay: BOYD	1	17
Northeast Newfoundland shelf, the, morphology of two transverse channels on: WARREN	1	19	Shelf, Newfoundland, northeast, the, morphology of two transverse channels on: WARREN	1	19
Nova Scotian continental margin, the deep water sands and silts on: STOW	3	81	Short review, a: Quaternary studies in Newfoundland: TUCKER	2	61
Operated, hand-, device, portable, a, for drilling in soil and salt marsh deposits: MEDIOLI	2	77	Silts, sands and, deep water, on the Nova Scotian continental margin: STOW	3	81
PIPER, D.J.W., see BOYD	1	17	Soil and salt marsh deposits, a portable, hand-operated device for drilling in: MEDIOLI	2	77
Portable, a, hand-operated device for drilling in soil and salt marsh deposits: MEDIOLI	2	77	Southern New Brunswick, regional gravity survey of the Caldeonian Highlands area of: BURKE	3	91
PREST, V.K., TERASME, J., MATTHEWS, J.V. Jr. and LICHTI-FEDEROVITCH, S., Late-Quaternary history of Magdalen Island, Quebec	2	39	St. Lawrence Estuary, the, morphology and sediments of sand waves in: MONAHAN	1	1
Quaternary, Late-, history of Magdalen Islands, Quebec: PREST	2	39	STOW, D.A.V., Deep water sands and silts in the Nova Scotian continental margin	3	81
Quaternary studies in Newfoundland: a short review: TUCKER	2	61	Studies, Quaternary, in Newfoundland: a short review: TUCKER	2	61
Quebec, Late-Quaternary history of Magdalen Islands: PREST	2	39	Surficial sediments and sand and gravel deposits of inner Massachusetts Bay: COOKS	1	9
			Survey, regional gravity, of the Caldeonian Highlands area of southern New Brunswick: BURKE	3	91

	<u>Number</u>	<u>Page</u>		
Transverse channels, two, on the northeast Newfoundland shelf, the morphology of: WARREN	1	19	Water, deep, sands, and silts, on the Nova Scotian continental margin: STOW	3 81
TUCKER, C.M., Quaternary studies in Newfoundland: a short review	2	61	Waves, sand, in the St. Lawrence Estuary, morphology and sediments of: MONAHAN	1 1
Two transverse channels on the north- east Newfoundland shelf, the morphology of: WARREN	1	19	WILKINS, R.L., see COOKS	1 9
WARREN, J.S., The morphology of two transverse channels on the north- east Newfoundland shelf	1	19	WILLET, C.F., see COOKS	1 9
			Winds, intense: gravel cones and depressions, sedimentary indicators of: EYLES	2 75
