## Contributors / Collaborateurs

---

ANNMARIE ADAMS is William C. Macdonald Professor and Associate Director at the School of Architecture, McGill University. She is the author of *Architecture in the Family Way: Doctors, Houses, and Women, 1870-1900* (1996) and *The Architect and the Modern Hospital, 1893-1943* (2008), and co-author of *Designing Women: Gender and the Architectural Profession* (2000). (annmarieadams@mac.com).

STACIE BURKE is an Associate Professor in the Department of Anthropology, University of Manitoba. In addition to the Towers project, her current research interests include tuberculosis and the sanatorium movement in Canada and population health in 19<sup>th</sup>/early 20<sup>th</sup> century British colonies. (burkes@cc.umanitoba.ca).

NATHAN FLIS is a doctoral student in Modern History at the University of Oxford. He holds an MA in History of Medicine from McGill University and an MSt in History of Art from Oxford. His research is based on the images of historical science, especially natural history, neuroscience, and psychiatry. (nathan\_flis@hotmail.com).

MARY ANNE POUTANEN is adjunct professor and part-time faculty in the Department of History at Concordia University. She is a member of the Montreal History Group and co-author of *A Meeting of the People: School Boards and Protestant Communities in Quebec, 1801-1998* (2004). (mapoutan@alcor.concordia.ca).

DAVID THEODORE is a doctoral student in Architecture, Landscape Architecture and Urban Planning and the History of Science at Harvard University. His publications include studies of architecture's role in tuberculosis therapies and the history of children's hospital architecture in Canada. (theodore@fas.harvard.edu)
