## THE VIRTUAL WORLD OF INSURANCE AND RISK MANAGEMENT

We have visited the Web site of FFSA

<http://www.ffsa.fr>

A professional organization established in 1937, the Fédération Française des Sociétés d'Assurances has 326 members accounting for 92% of the French insurance market and nearly 100% of the international activity of the companies in this market. The French Federation of Insurance Companies fulfils five main goals: To represent the interests of the profession; To be a harmonizing tool with its various partners; To jointly study technical, financial and legal problems; To inform the public; To promote preventative actions.

The FFSA web site is designed to be a site of reference and wishes to directly contact the public, under the following sections:

- Insurance and you
- Insurance and business
- Insurance and the economy
- FFSA information services

It is impossible for us to present herein all the contents of each diversified section.

The website content is exclusively owned by the FFSA. The internet surfer is informed by a legal note about the rights of author of the Federation.

We also find a French glossary listing and defining the insurance technical terms, by simply clicking on each letter of the glossary alphabet.
