Bibliography: Recent Publications Relating to Canada's Urban Past

Bibliographie: Publications récentes en histoire du Canada urbain

Elizabeth Bloomfield

Preface/Préface

This is the sixth annual bibliography to appear in the October issue of the *Urban History Review*. It was originally organized to follow the format of *Canada's Urban Past: A Bibliography to 1980 and Guide to Canadian Urban Studies* by Alan F.J. Artibise and Gilbert A. Stelter (Vancouver: University of British Columbia Press, 1981).

This bibliography is limited to about 650 records, and must therefore be selective. We have concentrated on the larger cities and towns, and exclude most ephemeral or local history items. Particular efforts have been made to trace theses in Canadian urban history and urban studies.

Canadian periodicals, bibliographies and indexes are searched systematically for items of potential interest to Canadian urban history. However, we still need help from our readers, particularly with theses, but also with reports and discussion papers, local history items and articles and books on Canadian urban subjects which are published outside Canada. References for inclusion in the 1987 bibliography may be submitted to the Bibliography Editor until May 31, 1987.

We thank the following individuals for contributing references to the 1986 bibliography: Anne Alexander, Norman Ball, Gerald Bloomfield, Susan Dentelbeck, Annick Ger-

Dans le numéro d'octobre, la *Revue d'histoire urbaine* présente sa 6e bibliographie annuelle, organisée à l'origine selon le modèle utilisé par Alan F.J. Artibise et Gilbert A. Stelter dans *Canada's Urban Past: A Bibliography to 1980 and Guide to Canadian Urban Studies* (Vancouver: University of British Columbia Press, 1981).

Cette bibliographie se limite à environ 650 titres et doit, par conséquent, être sélective. Nous avons mis l'accent sur les grandes cités et villes et écarté les articles à portée plus éphémère ou d'histoire locale. Des efforts particuliers ont été faits pour retracer des thèses portant sur l'histoire urbaine canadienne et sur les études urbaines.

Les périodiques canadiens, les bibliographies et les index sont dépouillés systématiquement à la recherche de publications présentant un intérêt pour l'histoire urbaine canadienne. Cependant, nous souhaitons que nos lecteurs continuent de nous transmettre de précieuses informations, notamment sur les mémoires et les thèses, mais aussi sur les documents de travail, les rapports, les débats, les textes d'histoire locale et les articles ou les livres traitant de questions urbaines canadiennes publiés à l'extérieur du Canada. Toutes les références pour la bibliographie de 1987 doivent parvenir à la responsable avant le 31 mai 1987.

main, Richard Harris, Robert Hatchard, INRS-Urbanisation Staff, Robert McDonald and Murray Nicholson.

For the third time, computer methods have been used in compiling the bibliography. As well as saving some tedious labour in filing, sorting and cross-referencing the items, the change also permits references to be stored permanently in the computer record and may be retrieved for other purposes. We acknowledge the help of Peter McCaskell in setting up and testing procedures.

Dr. Elizabeth Bloomfield

Organization of the Bibliography

The 1986 Bibliography has General and Regional divisions, each subdivided into sections which differ marginally from those of past bibliographies. In each province, census metropolitan areas and census agglomerations with core cities of at least 50,000 people are all distinguished. Small urban centres are grouped under the heading "Other Urban Centres," with references ordered alphabetically by name of author(s).

Nous tenons à remercier les personnes suivantes pour leur contributions à la présente bibliographie: Anne Alexander, Norman Ball, Gerald Bloomfield, Susan Dentelbeck, Annick Germain, Richard Harris, Robert Hatchard, INRS-Urbanisation Staff, Robert McDonald et Murray Nicholson.

Pour la troisième fois, la bibliographie a été compilée grâce à l'informatique. Ce changement permet non seulement de stocker les références de façon permanente dans l'ordinateur, mais aussi de les réutiliser à volonté, tout en facilitant le fastidieux travail de classement. Nous tenons à souligner l'apport de Peter McCaskell qui a établi et vérifié le programme.

Dr Elizabeth Bloomfield

N1E 1C9

Organisation de la bibliographie

La bibliographie de 1986 se scinde en deux grandes divisions: Aspects généraux et Régions, elles-mêmes subdivisées en sections similaires à celles des précédentes bibliographies. Dans chaque province, les zones métropolitaines de recensement et les villes principales qui comptent au moins 50 000 habitants ont toutes été retenues. Les plus petites agglomérations urbaines sont regroupées sous la rubrique «autres centres urbains» dans l'ordre alphabétique des noms d'auteurs.
